

BEDE BENNETT

YEAR 12 STUDENT | WEBSITE: BEDEBENNETT.GITHUB.IO

OBJECTIVE

Caring student who listens and follows instructions whilst also taking initiative when needed. Looking to apply my skills in 'real-world' situations and gain further experience. I enjoy helping others and work well as a team, so I look forward to helping your company.

SKILLS

I am great at relating to other people and understanding them on an emotional level.

It will not take me long to understand digital systems as digital technology could be described as 'second nature' to me.

EXPERIENCE

DRAMA PHOTOGRAPHER • WELLINGTON COLLEGE • 2016 AND 2017

This job had me dedicated to a week of operating a DSLR camera and managing large amounts of data. In both the years I worked on this weeklong job I cooperated with and lead my co-photographer to success by coordinating the categorisation of photos and matching of names to faces. I also prepared a digital presentation for an 'Oscars' like awards ceremony for the Year 9 students that were participating in these Shakespeare productions. I opportunity had me working and communicating professionally with adults.

The work I did pleased many people with genuine thanks from staff members and Year 9 students asking me for photos of them after each of the two Drama Festivals. I am very proud of what I have accomplished as it allows the Wellington College Year 9 Drama Festival of 2016 and 2017 to be remembered and cherished forever.

Some of the work from this job can be seen at my website: bedebennett.github.io

DOG CARER • CAROLYN O'FALLON • 2015 TO 2017

I was asked by my neighbour, Carolyn O'Fallon, to care for her two whippets in times when she away or unable to. Work involved exercising them, dealing with their waste, and providing food and water for them. Prior to doing this job I had a fear of dogs but I was able to get past this quickly throughout my time working on odd days for Carolyn O'Fallon
